

quetzal/include/quetzal  
/coalescence/occupancy  
\_spectrum/utils.h

```
graph TD; A["quetzal/include/quetzal<br/>/coalescence/occupancy<br/>_spectrum/utils.h"] --> B["vector"]; A --> C["random"]; A --> D["utility"];
```

The diagram illustrates a header file structure. A central box at the top contains the path 'quetzal/include/quetzal /coalescence/occupancy \_spectrum/utils.h'. Three blue arrows originate from the bottom of this box and point to three separate boxes below it, labeled 'vector', 'random', and 'utility'.
